# Clipster® Aseptic Disconnector

## Description

The Clipster® Aseptic Disconnector is a single-use device developed by Sartorius Stedim Biotech that completes our range of products by performing aseptic disconnections of tubing. The Clipster® Aseptic Disconnector may be sold as a standalone product or preassembled on our Fluid Management bag assemblies.

The Clipster® Aseptic Disconnector is safe, quick and easy to use. The disconnection is performed with a hand-held tool which ensures easy execution in various space requirements.

## **Application**

The Clipster® Aseptic Disconnector is used after a fluid transfer to disconnect single-use transfer lines and bag assemblies used in biopharmaceutical applications. The Clipster® Aseptic Disconnector allows aseptic disconnection in non-classified and classified environments while maintaining product sterility. It can be applied to multiple types and sizes of tubing.

Features	Benefits			
Mechanical disconnection	Could be performed on platinum-cured silicone and TPE tubings			
Error-proof design	Prevents mistakes			
Four-step operation	Easy, quick, robust and repeatable			
Intensively qualified	Safe and robust			
Available as standalone product or preassembled	Flexible			
Hand-held tool	Easy to use			
Three Clipster® sizes	Compatible with five tubing dimensions

## Sterilization Methods

Gamma Irradiation	≤ 50 kGy
Autoclaving	2 × 30 min at 125 °C

#### Validation

The Clipster® Aseptic Disconnector has been qualified by applying the most stringent and innovative test regimes. Biological and physical tests were combined to provide users of the Clipster® Aseptic Disconnector with data representing a variety of process conditions.

Methodologies and equipment are detailed in the Validation Guide.

## Quality Assurance

Sartorius Stedim Biotech Quality Systems for single-use products follow applicable ISO and FDA regulations. Design, manufacturing and sterilization processes are conducted under conditions that mirror biopharmaceutical operations and meet cGMP requirements.

# Security of Supply

Sartorius Stedim Biotech has established multiple manufacturing sites with consistent industrial processes. The expertise of designing single-use solutions based on collaborative supplier management and customer demand planning ensures a state-of-the-art and robust supply chain that can cope with strong market growth.
