Benefits

- Scalable software for almost all bioprocess applications
- Central platform for real-time data and historians of process, analytical and sampling data
- Automated batch execution with the ANSI/ISA-88 compliant recipe control module
- Supports all requirements to archive GMP and FDA 21 CFR Part 11/EU Annex 11 compliance
- Fully user configurable and upgradeable with specific modules
- Installation, configuration, validation and engineering services

Product Information

BioPAT® MFCS software enables you to incorporate a new standard in bioprocess data management and automation.

Its reliable data acquisition, efficient trend monitoring, and advanced recipe control make it an ideal tool for all upstream and downstream processes, no matter if you prefer single-use or reusable systems. The new BioPAT® MFCS is your solution for robust and reproducible processes in R&D and GMP environments – all backed by our expertise since 1986.
**BioPAT® MFCS/win Support and Lifecycle**

Main Support End: 13th October 2024  
Hotline support, delivery of patches for technical or security issues

Extended Support End: 14th October 2026  
End of Hotline Support

### General

| Feature                          | Details
|----------------------------------|--------------------------------------------------|
| Number of supported process units| up to 32 up to 16
| Minimum data export interval     | 0.5 s 1 s
| Database management              | Microsoft® SQL Microsoft® Access
| User interface languages         | EN, DE, ZH, FR, ES, IT EN

### Training & Support

| Feature                          | Details

### Minimum System Requirements for BioPAT® MFCS

#### Server & Client Stand-alone Installation

- 8-core processor 3 GHz
- 32 GB memory (RAM)
- 500 GB hard disk space
- DirectX, 1GB RAM graphic card
- LAN adapter, RJ-45, 1 Gbit
- 15.6” monitor (1366 × 768)

#### Supported Virtual Environments

- VMware® Workstation
- Hyper-V®

#### Multi-User Installation

**Client**

- 6-core 3 GHz processor
- 16 GB memory (RAM)
- 50 GB hard disk space
- DirectX, 1GB RAM graphic card
- LAN adapter, RJ-45, 1 Gbit
- 15.6” monitor (1366 × 768)

**Server**

- 6-core 3 GHz processor
- 32 GB memory (RAM)
- 500 GB hard disk space
- LAN adapter, RJ-45, 1 Gbit
- DirectX, 1GB RAM graphic card
